This eBook is not to be edit or sold in any way without my knowledge. I have all rights to this eBook. If you purchase this from anyone besides me, on eBay or anywhere else, please contact me ASAP.

This guide eliminates all the crap that most other eBook writers throw in theirs. This isn't going to be full of pictures of items and homes to entice you into doing anything. This guide will show you straight up, the techniques to generate HUGE profits on the internet. You need to put in some effort to get a return. The effort doesn't have to be big by any means, but the more you put in, the more you get out. That said, sometimes there must be a small amount of money spent to gain a large amount. You know the saying; it takes money to make money. That is definitely not 100% true though, because I provide methods that don't have any fees at all. But to be honest those are the ones that are hard to make money, let alone at a steady rate. But it is up to you, that's why I'm providing you with a bunch of methods.

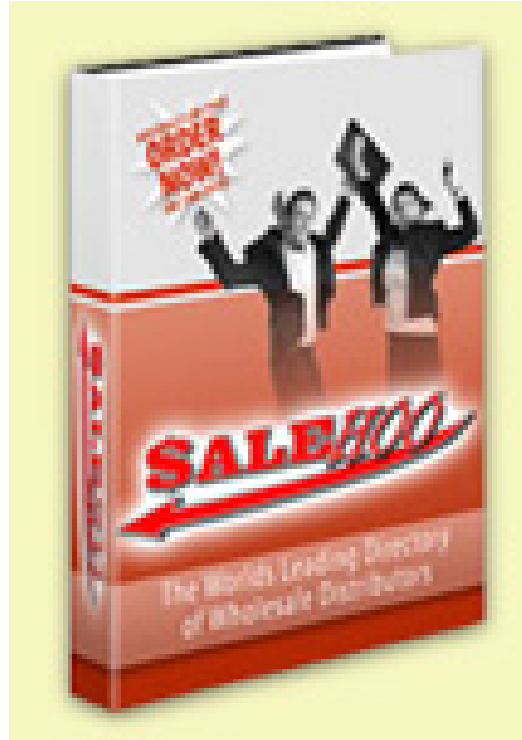

I will take you through these various methods of how to utilize the internet to make

money, with steps included. This guide is very straight forward, there will be no embellishing. If you want a REAL eBook on making money online, this guide is all you need. There are dozens of almost hidden websites on the internet that generate HUGE profits to those who find them. I have found a bunch of them and I will share them to you in this eBook. This guide is NOT complicated, nor hard to understand. I have written the SIMPLEST eBook on the internet on how to make money online. It honestly doesn't get any easier than this. I am literally handing you the opportunities on a silver platter. The methods are not saturated with useless information and heavy repetition. I get straight to the point. I provided links to everything you need to get started IMMEDIATELY. You can be making money 5 minutes after you finish reading this guide and that is not a joke. This eBook is 100% scam free. I have 100% feedback on eBay as of 1/26/08. Now let's get started.

Money Making Method #1

eBay and Wholesale

eBay is the mostly widely used auction site online, and one of the most visited sites on the entire internet. You may notice when you search for your favorite products, people are selling them for SO CHEAP. You think to yourself, "How do they even make a profit?" I will tell you how. They have utilized wholesale suppliers to sell the goods for WAY under the retail value. There is an almost secret place on the internet that has a HUGE database of tens of thousands of wholesalers, liquidators, drop shippers, and manufactures.

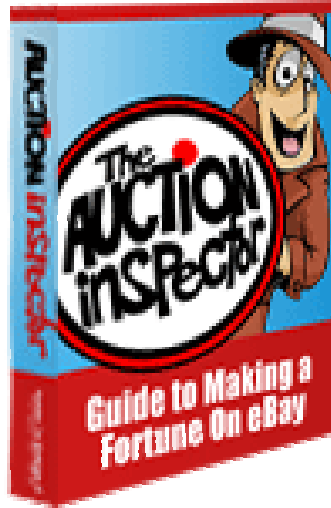

[SaleHoo is the best site to get wholesale goods.](#)

You can even have the companies ship the products straight to your customers without you even physically seeing or touching them! It's a great service and anyone who wants to make a good profit on eBay needs this site. It eliminates all the scammers online because every company listed on the site is confirmed to be legit. They are prescreened to make sure they actually go through with their transactions, so everything on that site is

100% safe. It comes with research tools, great support and even more. It is truly an amazing site. Literally any type of product is available on this site.

[Click here to get a lifetime membership to SaleHoo through this limited offer.](#)

You can also look and see what products or in demand on eBay. I bought this program and it does wonders. It's called Auction Inspector. It searches eBay's wanted now section for whatever you want. It shows you what items are in high demand that have little supply. For example I searched tennis racquets. There is a large amount of people asking for them, but not a lot of people selling them. You can even search eBay UK, Australia, or Canada to see what is profitable in other parts of the world. Excellent program, I would highly recommend it if you want to become a power seller.

[Click Here to download Auction Inspector.](#)

Once you get the minimum of 10 feedback score on eBay, it is best to start an eBay store for as low as \$19.95 a month. It cuts down your fees and you can keep items on for as long as you want.

Another way to make money off eBay

eBay has an affiliate marketing program that tons of people capitalize on since they are one of the most profitable sites on the internet.

The affiliate program enables you to promote eBay listed products in exchange for a healthy share of eBay's revenue for each sale that you refer.

Now to be able to advertise the products you should first selected the type of product you want to promote so you can center in on one niche. The best way to advertise is to create your own website (which is describe how in method #2), and link ending auctions to you site so people can access them from your site. You will need a good back ground in web design if you are starting from scratch. If you don't which is likely, you can use [this INCREDIBLE program which makes the site for you.](#) It literally sets up everything for you and you are ready to make money in a matter of moments. More information is available [here.](#) It is an excellent program and I recommend it to anyone who wants to use eBay's affiliate program to make money online.

Money Making Method #2

Blogging

Blogging is taking the internet by storm these days, so it is only smart to use it to your advantage to make money. It is very simple, plus it's completely free.

1. Create a blog
2. Add Google AdSense to it.
3. Generate Traffic

First, use [Blogger.com](https://www.blogger.com) to make a free blog. It makes blogging very simple, anyone can do it. You want to make a blog about a popular topic/subject to generate the most traffic, which in turn equals more money. Use Google to search the most search terms on the

internet to get a good idea of what to write about.

Next, add AdSense. It takes a day or two to get your account verified. Google AdSense is a utility that creates ads provided by Google on your site for no cost what so ever. Whenever someone clicks on an ad you make money. At first you won't be making much but when your traffic increases, so will your revenue.

Google owns Blogger so it is already integrated into the site. All you have to do is go to templates and you can add the ads. Now you have you blog up and running. Next thing to do is generate traffic.

First you should ping your blog. It basically updates search engines every time you add a post to your blog. Here are some sites to use.

www.pingoat.com/

www.autopinger.com/

www.blogsearch.google.com/ping

Another way to generate traffic is to create RSS feeds. Use these sites to guide you.

Best Blog Directory And RSS Submission Sites

Another list of sites to submit your Blog.

<http://www.rss-specifications.com/rss-submission.htm>

Also, you can add other sites RSS feeds onto you site to always have the most popular content. This is a great way to constantly add more traffic because it keeps the hot new news and information on your site.

If you generate good traffic to your blog, you could be making up to \$5-10 per day. And if you have multiple blogs you can be generating big money.

You can also get paid to blog. [This site pays you \\$20 just to sign up.](#) If you are a

dedicated blogger, and like writing about stuff, you can easily make \$500 or more a month.

Even if you aren't you can COPY FREE ARTICLES to the site and make money out of money. Use Google to find free article databases or resource centers.

[Click here to get paid to blog.](#)

Money Making Method #3

Making a Website

This one is pretty self explanatory. You go about this almost the same way as making a blog. The only difference is that you must create your own website. First you need to register a domain name. To do so go to

[GoDaddy.com](#)

Next you need to create the webpage. A couple good free programs to use are [WebPlus](#) and [NVU](#).

And then just like the blog, you need to add AdSense and generate traffic. This time isn't as simple because you don't have the blogger automatically generating your ad placement. You need to go to the [AdSense](#) page and create your own ad style. It will generate HTML code for you to put on your web page.

Now to generate traffic to your website you have many options.

1. **Advertise.**

You can do this through by using [Google AdWords](#). It is a pay per click advertising service used by Google. You create keywords so when people search for those

certain keywords your ads will come up. You can determine how much you want to pay per click. You can also use Yahoo to display your ads.

Now if you don't want to pay for the ads on a regular basis, [you can use this ingenious method on how to get Google, Yahoo, and every existing search engine ads FOR FREE.](#)

Your ads appear beside related search results...

People click your ads...

...And connect to your business

This system is well worth the price if you want to constantly advertise your site. You will never have to pay for ads again. The

traffic for your site will increase 10 fold. A few of my friends use it to promote their sites and it did them wonders. Their AdSense revenue skyrocketed. They're ads were always coming up in the search engines which in turn generated them large amounts of traffic in a short period of time.

2. Opt-In Emails

With Opt-In Emails, you can pay a service a small or large fee (depending how many people you want to view your site) for them to email their HUGE subscriber list. This is NOT spam. The people who are subscribed to these sites get paid a few cents to read these emails. They are also targeted by their interests! So if you have a music site you can have the service email your site to

all their music lovers. Here is a great site for this service, [Blast Your Ad.](#)

3. [Jump your Website to the Top of the Search Engines](#)

Then there are programs that do all the work for you. It is hard to get to the top of the search engines because the big companies pay BIG dollars for them to have those spots. But people have created software to even the playing field. [Click here for the best Search Engine Optimizer available right now.](#) If you have the money, this is THE BEST way to increase your traffic. If you are selling things on your website this product is a must. It will

single handedly increase your profits by at least 50% in 30 days.

Mon	Mar	26	\$2,781.17	
Sun	Mar	25	\$1,450.58	
Sat	Mar	24	\$1,101.24	

Your account could look like this. You can use all these techniques with your blog as well.

4. [Use Chat Rooms, Message Boards, MySpace, classified ad sites and Facebook.](#)

This requires probably the most work, but it is cost free. Try using Google to find chat rooms or message boards relating to you website's topic. Make a Facebook group and invited all your friends, and the same with MySpace. Post on the classifieds and forums on MySpace. Make the most of free exposure. Also try free classified as pages such as [Epage](#) and [USfreeads](#). You can also post your link on other people's popular blogs in the comment section.

Now if you don't have the time or patience to start your own website you are in luck because I have a link to over 150 topics with over 15,000 web pages that are PRE MADE for you to generate immense AdSense profits. They are custom designed to make the most of the Google ads and I highly recommend it to people who want to start making money NOW. It can easily make you an extra \$1500 just this

month. All the work is done for you, you just put the site up and your money is waiting to be made without you having to do a thing. There is little to no effort need to be put in the site once it's up. It is a cash machine from there.

To be honest, this might be the EASIEST way to make money online today. You can literally just set it and forget it. It's made me tons of AdSense money. Here is an example of a

Yoga and Low Carb Diets

Yoga is an ancient system of movement designed to generate vibrant health and well being. Excellent health and well being are experienced in the results of a yoga practice such as: stress reduction, increased energy and awareness, increased flexibility, focused mind and strong body. In our modern world there are so many types of yoga to choose from that it can be confusing and difficult to start a yoga program. Do you have to practice postures(anasanas) in a hot room for an hour and a half in order to enjoy the benefits of this ancient art? And, is it necessary to execute postures under strict guidelines created for East Indian bodies and minds? As a yoga instructor my answer would be no. A successful yoga practice supports the goals of the practitioner without rigidity.

Money Making Method #4

Online Survey's + More

A lot of people think these are scams, but if you find the right sites they aren't and you can make TONS of money just giving your opinion. Surveys pay between \$5-125 each. It's a huge market just waiting be tapped. People are skeptical so the market isn't oversaturated. It is a great way to make money on the side. These are two of the best paid survey sites on

the internet. They require a small onetime fee to start but don't let that scare you away. You will be making that up in less than an hour, guaranteed.

These sites also pay you to shop, eat, drive your car, try new products, travel, watch movie trailers and tons more. This is no joke; they actually give you money for this!

You basically choose how much money you want to make. The more time you spend the more you make. It's that simple. Don't let the

signup fee drive you away from this amazing money making opportunity.

Money Making Method #5

Data Entry Jobs

You are basically going to get paid to type. That's all there is to it. Companies need hundreds of thousands of forms to be filled out but don't have the man power to do them. That's where you come in. Most of the forms are VERY SHORT. You can be making between \$30-50 dollars per form. You don't need any technological expertise either. These forms are simple. This isn't a get rich quick scam. It's an actual job that companies will pay you for. People are making \$300-2000+ dollars a day. If you set aside an hour or two each day you can make a whole living on the side. You can start making money literally 5 minutes after starting. This is one of the best ways to make money online.

These sites I found to be the best when it comes to data entry.

[My Data Team](#)

[Real Colleagues Data Entry Partnership](#)

Some members have made over \$43,000 a month. Insane, I know. These jobs are starting to become very popular so I suggest the sooner you sign up, the better.

Money Making Method #6

[Take Pictures for Money](#)

pflighthouse.com

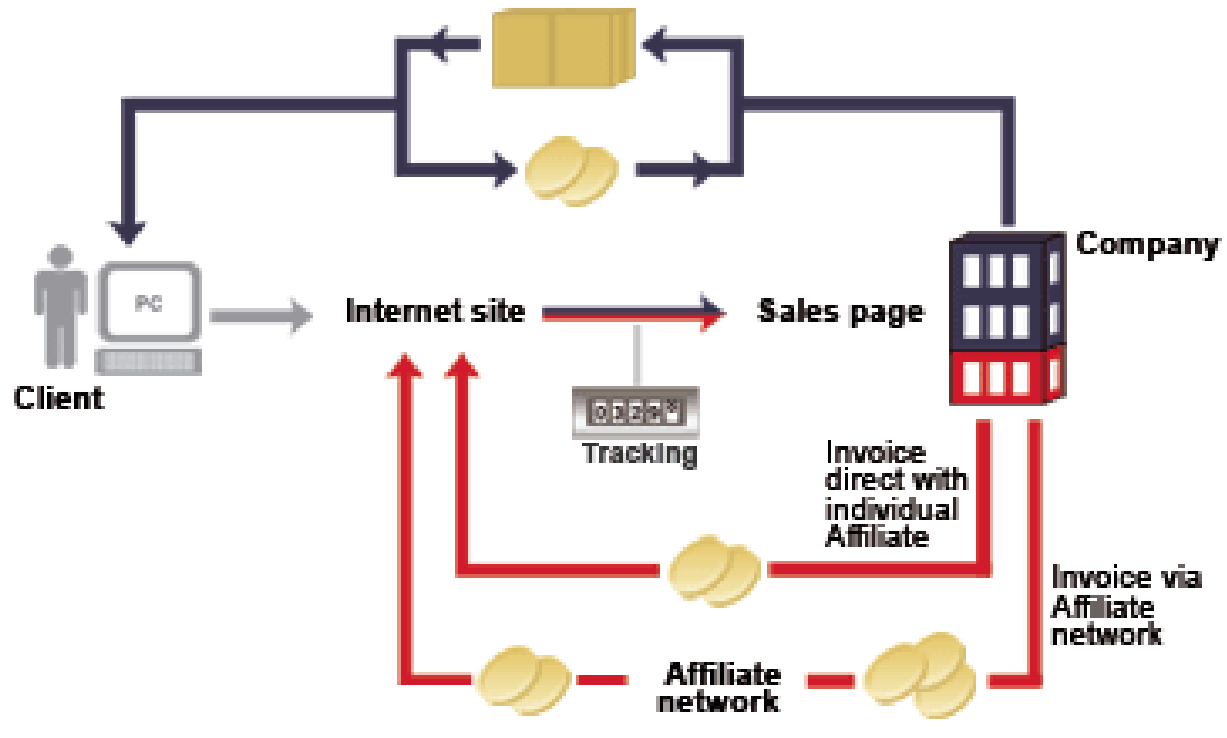

Yes you read correct. You will get paid to submit pictures to [this website](#). You can earn up to \$250 a day and also the opportunity to earn monthly residual income off every photo that you submit online. You don't need any experience in photography either. Over 18,000 people have capitalized on this great system. You don't need any special printers or expensive photography equipment because all of the pictures you take will be uploaded straight to the internet. You don't need to know anything about digital cameras or photography to make money with this system.

There has never been a better chance to be a freelance photographer.

[Start making money by taking pictures today by clicking here.](#)

Money Making Method #7

Affiliate Marketing

This might be the most profitable way to make money on the internet. It's a little more complicated than all the other methods so I will explain it as simple as possible.

There are sites in which people supplying products sign up for. They are listed on the site. Regular people like you and me can sign up for this site also and **PROMOTE** their products. If you successfully get someone to buy their product then you make a **HUGE**

commission, as high as 75% and never under 50%. So you basically get paid for selling other people's products.

The two best sites for affiliate marketing are:

[Pay Dot Com](#)

and

[Click Bank](#)

There are products for every single market out there, so anything you think you would be successful at marketing you could find. The money goes into an account on the site and they send you a check every 2 weeks, or you can get the money put in your PayPal account. You can use any means necessary to get your

link out there for people to use. Try using some of the methods I gave on pages 11-14 such as, [Free Google Ads](#), [Opt-In Email](#), [AdSense](#), and the [Search Engine Optimizer](#) for gaining website traffic. You can even use your blog as well. You can promote you link using the free classified as sites and etc. like I mentioned early. It is a lot harder though because it's harder to focus in one an interested demographic.

If none of these methods are helping you, or you want more information/ideas, here are some references that you should look into that have proven to make people large sums of money online.
